Upload Browse All

File example_File_Upload.txt Browse...

Title You can enter a title of your file here.

Description You can enter a description of your file here.

Upload »

You'll find this file upload interface at the bottom of the "Write a Post" page. Use the Browse button to find and select the file you want to upload from your PC. You can type a title, which will show up as a link in your post, allowing visitors to access your file (from the site, not your PC). Click the Upload button to send your file to mchepi.com.

Example
December 12th, 2007

Here is an example of what you can do. Attached is an SPSS syntax file — this one actually doesn't do much other than extract the year from a date. You would describe what the syntax does here, and then upload the file and link it within this post. Here is the file: [Test SPSS syntax \(SPS\) format](#).

Hint: After uploading the file, click Send to Editor to insert the link in your post.
